DISCOVER YOUR SKIN

Brand Story

Created and conceptualized by renowned, spa owner, aesthetician and makeup artist, Miriam Ciantar, Baroque & Rose is the culmination of a vision encompassing 40 years of work and experience.

Baroque & Rose Lifestyle fills in an important gap within the industry, namely, a luxurious Unisex, Organic, vegan, Halal and cruelty free product line which is perfectly geared towards both men and women of all ethnicities. Our 100% natural, Organic, ingredients, cultivated straight from the earth, are safe and effective regardless of the type of skin they are used on thus allowing everyone to indulge in the luxurious experience our range provides.

Sustainability

Sustainability is a core aspect in the creation of each of the products that are part of the Baroque & Rose Lifestyle range.

All of our packaging is eco-friendly and in line with our ethos including the ink used on our product containers. A sustainable skincare brand is, not only, the best choice for the environment, it is also better for you. The toxic ingredients found in beauty products end up leaking into the waterways and soil once they are disposed of and cause contamination. These very same toxic ingredients can also have an adverse impact on your body and skin. Be natural, be organic!
