

Introducing the world of Ramsbury

Product Catalogue

We are Ramsbury

In the heart of Wiltshire, England, we make smooth, creamy vodka and crisp, rich gin – crafted with care from our own fields and distilled with pride. From seed to sip, we do it all with the least environmental impact possible, from our land to your glass.

Our exceptional & *sustainable* spirits

Every bottle of Ramsbury is the result of over a year of dedication, starting with growing our own wheat and distilling our remarkably smooth base spirit. From there, we craft vodkas and gins of exceptional quality and character. Whether enjoyed neat, mixed into a timeless classic, or poured into a modern creation, Ramsbury always delivers both refinement and responsibility.

An aerial photograph of a distillery farm at sunset. The scene shows a cluster of dark-roofed buildings, including several large barns and a smaller house with a red roof, nestled among green trees. Surrounding the buildings are vast, golden-brown fields, some with patches of green. In the distance, rolling hills are visible under a warm, orange-hued sky with soft clouds. The overall atmosphere is peaceful and rural.

Big on Flavour, *Small on Impact*

Every bottle of Ramsbury begins in the fields surrounding our distillery, where we grow winter wheat high in gluten protein that gives our spirits their smooth, complex character. By controlling both the crop and the land, we ensure unrivalled quality while protecting our soil for generations to come.

Unlike traditional distilleries that rely on transported crops or industrial alcohol, we keep everything on-site, cutting out unnecessary transport and keeping our footprint as light as possible.

A closed loop eco system. A closed loop eco system.

The purest water, *returned*

The only ingredients we need are wheat and water — and we treat both with care. Our water comes from an ancient aquifer 195 meters beneath the distillery, naturally filtered through chalk bedrock for unrivalled purity and smoothness.

After use, every drop is safely returned to the land through wildlife-friendly reed beds just behind the distillery. From water to spent grains, everything we take from the land is circled back to it.

Our stills are powered by wood from our own sustainable woodland through a biomass heating system, with the ashes returned as fertilizer. Solar panels power the rest of our operations, and spent grains are fed to our cattle — who in turn enrich our fields once again.

It may not be the easiest way of making spirits.
But for us, it's the right way.

Our portfolio goes beyond the core. From permanent expressions to seasonal editions, limited releases to minis and ready-to-drink serves – whatever your market demands, Ramsbury has a spirit to match.

(Except tequila. That one we leave to others.)

Core SKU's

Ramsbury vodka
Ramsbury gin

Seasonal & Ltd. edt.

Hot Honey Vodka
Raspberry & Wildflower Honey Gin
Lemon Balm Gin

RTD's

Gin & Tonic
Vodka Soda
Limited Edt.

Ramsbury *Vodka*

Distilled from our own winter wheat, Ramsbury Vodka is exceptionally smooth with notes of dried fruit, cocoa, and caramel. Elegant and medium-bodied, it carries hints of dark chocolate and finishes with a buttery, silky richness that makes it distinctive and refined.

Crowned with the rare Platinum Award at the San Francisco World Spirits Competition – an honor reserved for spirits that earn Double Gold from every judge three years in a row – Ramsbury Vodka has also been named “Vodka of the Year” at the London Spirits Competition 2024 and “Best in Class” at SFWSC 2023.

Ramsbury

Gin

Unlike most gins, Ramsbury begins with one of the world's finest vodkas, distilled from our own winter wheat through a 43-plate copper still for exceptional smoothness. The result is a premium London Dry with a fresh, floral twist — rich with juniper, citrus, woody angelica, bitter almond, spicy cinnamon, and our signature quince.

Recognized with multiple Gold medals at the San Francisco World Spirits Competition, Ramsbury Gin has earned international acclaim for its balance, complexity, and sustainability — making it a favorite among bartenders and modern gin drinkers alike.

Ramsbury *Lemon Balm Gin*

Crafted from our signature wheat spirit, Ramsbury Lemon Balm Gin is bright, crisp, and refreshing with a lively citrus character. Herbal and zesty, it's a fresh expression that captures the lightness of summer in every pour.

Ramsbury *Raspberry & Wildflower Honey Gin*

Juicy raspberries and smooth wildflower honey give this gin its vibrant edge. Bright, fruity, and silky, it balances natural sweetness with refreshing character — bringing the spirit of the countryside straight to the glass.

Ramsbury

Hot Honey Vodka

Sweet golden honey from our own hives meets a fiery kick of red chili in this bold infusion of Ramsbury Vodka. Smooth yet striking, it layers natural sweetness with gentle spice, creating a vodka that's as good over ice as it is powering a Hot Honey Picante.

Ramsbury Wildflower Honey Vodka

Infused with honey from wildflowers across our estate, this vodka is smooth, subtly sweet, and naturally refined. Floral notes blend with our silky wheat spirit for a rounded, elegant flavor — perfect neat, over ice, or in bright modern cocktails.

From Our Fields to the *World's* *Finest Bars*

Born in the rolling countryside of Wiltshire, Ramsbury is a spirit with both heritage and ambition. Every drop begins in our own fields, nurtured by nature and distilled with care, before finding its way into the hands of bartenders and mixologists who set the tone for the world's most vibrant bar scenes.

From renowned bars like *Dram*, *Muse*, and *Gothic Bar* in London to *Bar Clara* and *Salut* in Germany, to *Library Bar Fairmont* and *Suite 115* in Canada, and *A Bar Called Gemma* in Stockholm — Ramsbury has become a trusted companion behind the bar. Admired for its smooth character and for the values it represents, our spirits carry the authenticity of the land while thriving in the most cosmopolitan settings.

For those who seek not only flavor but also a deeper story — Ramsbury is both. A vodka and gin that celebrate craftsmanship and sustainability, while raising the standard for what a modern spirit can be.

Whether poured neat, stirred into a classic, or reimaged in a daring new creation, Ramsbury is more than a spirit. It's a choice — of quality, integrity, and a future where countryside and city come together in every glass.

Proudly born in Wiltshire, embraced by the world's leading bars.
