YOUR SKIN HAS ENTERED THE SPACE AGE.

Modern life takes skin further than we ever imagined across time zones, climates and altitudes. From recycled cabin air and altitude shifts to blue light, pollution, dehydration and chronic stress, today's environment challenges skin at every level. The result can be visible signs of accelerated aging, sensitivity and imbalance.

READY SET JET™ was created for this new reality. We combine advanced science, high-performance ingredients and intentional ritual to help skin adapt, recover and thrive wherever life takes you. This is more than travel skincare. It is skin performance for a world in constant motion.

The Indian-American Shalini Vadhera, a well known entrepreneur in the beauty circle is all set to launch her beauty brand 'Ready Set Jet' for the Indian market. She gets candid in this exclusive interview.

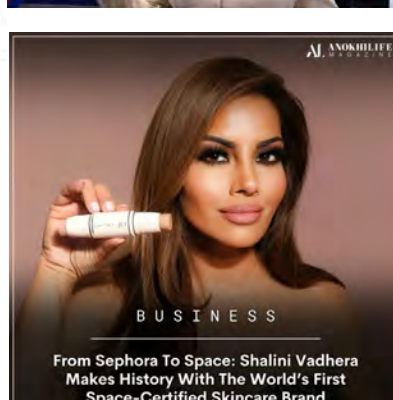

I found a lot of challenges when I launched my startup because in India and the US there were not a lot of resources for women to launch startups and I found it difficult to find women to join my team. I also faced a lot of harassment and discrimination being a woman entrepreneur. However, this also brings a special experience with a girl and meeting a lot of...

RSJ LOVE

★★★★★

My fans will be shook because your contour is ACTUALLY contour, cool not warm

★★★★★

I've struggled with psoriasis scarring and large pores in my face for over 30 years. I love how the RSJ primer helps blur them out.

★★★★★

I love the Paradise Pink Lip and Cheek Stain. It's the perfect color for me and I love that I can apply it directly for a brighter shade or lightly tap it on my lips with my fingers for a more subtle look.

★★★★★

I love the quality. The first thing I check when I try a new makeup brand is the quality. This one is 100% my favorite one. It's creamy...environmentally friendly. I feel like instead of putting make up on you're putting skincare on your face.

★★★★★

Verified review

I adore Ready Set Jet because it's just a quality brand. I work in aesthetic dermatology so I'm really really particular about what I put on my skin and this just feels right. The ingredients are really really rich and help your skin and then it also just makes you look nice and dewy and pretty so I love it

★★★★★

I especially enjoy the hydrating baton and the exfoliant. One of my biggest needs when I travel is for a way to exfoliate my skin and this baton keeps it in a small, easy-to-use package. Even though it's in a baton form, the exfoliant is extremely hydrating and leaves my skin feeling smooth and soft. I use it on both my face and hands to make sure I'm always ready for the day!

★★★★★

I really like the products. I like the batons because I like the idea of having interchangeable products because on the go it's so helpful to change what you actually need

★★★★★

My new go to! So flattering. Love how versatile it is, and easy to use. I apply more for a bolder look - including my wedding this summer! - or less for a subtler effect for day to day. The positive impact the company is making is an added boost and makes me feel even better about loving this product.

★★★★★

Omig! I'm in LOVE!! Paint & Pout! the whole concept of this product is so clever so unique and so much fun!!
 🌟 It's a fantastic product to take with you when you're travelling, holiday or even out for the day! Easy to use!
 I'm Loving the beautiful rich pigments & quality! Creamy yet doesn't budge, buildable and lasts long! I can't wait to try more add ons with this product! It's going to be amazing! 🌟
